

DENTISTS ON DEMAND

SMILES DELIVERED ON DEMAND

Dentists have been trapped in brick and mortar spaces since inception - meanwhile, the world has moved to on-demand convenience. That's why Dentists on Demand™ is bringing dentists to the masses, wherever they are.

Pop-up compassion and (beyond) exceptional experiences

Let's face it - the world is busy. People in the U.S. spend more time at work than they do with their families, or taking care of themselves. Dentists are finding it increasingly difficult to get patients to come in for their preventative appointments and grow their practice, while dealing with the overhead and burden of maintaining a retail environment.

Dentists on Demand is a convenient employee benefit offering in the workplace, bringing more patients to your chair.

And it's free for all - free to the employer and free to the employee because preventive care is covered 100% - regardless of the dentist being in- or out-of-network.
